## GROVER AT WORK AGAIN,

"Personal" Letter to a Tennesseean That Was Evidently Written for Publication. CHATTANOOGA, Tenn., Aug. 26,-Michael Shelly, a merchant in this city, got into a discussion recently on national politics with a Republican neighbor, who asserted "that during Cleveland's administration he [Cleveland] permitted Land Commissioner A. J. Sparks to turn out 29,000 families from their homes in Minnesota and other Northwestern States." Mr. Shelly addressed a letter to Mr. Cleveland on the subject and received the following reply

yesterday, marked "personal:" My Dear Sir-Your letter of the 12th inst. is at hand. In reply, I have to say that I have not the least idea what "your worthy friend" meant when he declared that "I had been the medium through which twenty thousand families were made homeless and had lost their all fighting for their rights." I am perfectly well aware that I have been the means of saving some homes to my countrymen and have tried very hard to make the burden of their lives easier. I am amazed at receiving from the Southern country letters containing charges like that which you bring to my attention. I am surprised, first, at the ingenuity necessary for their concoction without the least semblance of foundation. I am more amazed that with my record before the people of this country such baseless lies should be deemed sufficient arguments to prejudice me and the cause which I for the time being repre-sent in the minds of the Southern people. Very truly yours, GROVER CLEVELAND.

#### Branch Literary Bureau.

Special to the Indianapolis Journal. Washington, Aug. 28.-It has been decided by the Republican congressional committee to establish a branch literary bureau in New York; and Mr. T. H. Mc-Kee left for that city last evening to make the necessary arrangements. The establishment of a pranch bureau there has no political significance whatever, it is said, the move being made simply for convenience in transportation. Heretofore most of the printing has been done in this city, but this year the greater part, if, indeed, not all of it, will be done in New York. The same, or practically the same, character of literature will be sent out from both cities. T. H. McKee will have charge of both bureaus, but will, in all probability, remain at the New York bureau the greater part of the time. Just where the bureau will be located in New York has not been unally decided upon, although Mr. McKee will probably select the location on his

Cleveland's Friends Fighting Sheehan. BUFFALO, N. Y., Aug. 26 .- There is considerable excitement among the followers of Lieutenant-governor Sheehan in Erie county over a secret circular which has been sent out broadcast. It claims that the situation in the State has become very serious, and outlines a plan of salvation for Mr. Cleveland's friends to follow. The secret circular ends with the very significant statement that the national ticket will not receive the support it is entitled to if the campaign is left in the hands of Mr. Cleveland's enemies. This circular had not traveled very far before it fell into the hands of Mr. Sheehan's friends, and they are very angry. The tener of the circular was such that there could be no mistaking the fact that it was a direct attack on Mr. Sheeban. It was issued from the headquarters of the Buffalo contingent of the

# THE BORDEN MURDER CASE.

Dr. Do'an Concludes His Testimony with Gruesome Story About the Dead Bodies.

FALL RIVER, Mass., Aug. 26.-The crowd in the District Court room this morning at the resumption of the Borden murder case hearing was large. The prisoner and her friends came in at 9:55 o'clock unattended, except by the city marshal. Miss Lizzie walked firmly after her sister, took her usual seat at the end of the settee between her two counselors and busied herself reading a letter. The examination was resumed a few minutes before 10 o'clock, Mr. Adams called Dr. Dolan to the stand, who said the person who killed Mrs. Borden struck blow perhaps while she was standing up, and the others were struck after she had fallen. He must have necesparily been spattered with blood. Witness did not give any one permission to clean the woodwork in the house, in fact he told the family not to disturb the blood spots. Saturday after the murder he thought the parlor door was washed. Continuing witpees said that Mr. Borden's clothes were searched by the undertaker. Keys, some silver money, a pocket-book and some documents were found tied in a handkerchief, and were locked in the examiner's safe. Then came the most gruesome part of the testimony yet given, and while it was going on Miss Lizzie and Miss Emma closed their eyes, flushed and showed much feeling. Witness said the bodies have from the bodies by instructions of the Attorney-general. The skulls were cleaned and the bodies are now buried without the beads. The skulls were photographed, and they are now in witness's possession. Witpess said he saw the contents of the safe, but saw no will. In the witness's opinion Mrs. Borden died one or two hours before Mr. Borden. Dr. Dolan then left the stand, after being ordered to produce all the ar-

A. G. Hart, treasurer of the Union Savings Bank, testified that he saw Mr. Borlen in the bank on the day of the murder at 9:30 A. M. He remained five minutes, as was his daily custom. He did not look well, and upon being asked Mr. Borden sold witness he was unwell. Several other witnesses were examined, but nothing sew was elicited.

MINE DISASTER IN WALES

by an Explosion in a Colliery.

Little Probability that Any Will Be Taken Out Alive-Details of Two Senguinary Battles in Venezue.a.

\* TERRIBLE MINE ACCIDENT.

One Hundred and Fifty Men Entombed in

Colliery in Wales. LONDON, Aug. 26.-A fearful mine accident occurred this morning at the Park Slip coal pit, near Bridge End, a mining town in Glamorganshire, Wales. The day shift of 150 miners had not been long in the mine before a most terrible explosion was heard. The explosion caused the earth and rock to fall and closed the mouth of the pit. Not a single man of the 150 in the mine was able to get out unaided Rescuers at once went to work. At o'clock this evening two men were brought to the surface badly burned and unconscious. The physicians hold out little hope of their recovery. Shortly after these men were brought up the flames from the burning pit ascended and set fire to the structures at the pit-head. Seven miners found dead have not yet been brought to the surface. The explosion was felt over an area of ten miles. It caused tremendous falls of earth, which block the galleries. As the workings extend 1,700 yards, it is hoped that some miners who were working at a good distance from the shaft where the explosion occurred will be rescued alive.

### THE VENEZUELAN WAR.

Two Desperate Battles in Which Many Were Staughtered on Both Sides.

NEW YORK, Aug. 26.-The steamship Caracas, which left Laguayra, Venezuela, Aug. 20, arrived here to-day, and brought information of considerable fighting in that country between the government forces and the revolutionists. A severe engagement took place just before the steamship sailed, at Ciudad, Bolivar, details of which are now at hand. The battle opened outside of the town, when General Caieras caused a charge to be made on the enemy. The revolutionists stood their ground firmly, and suffered considerable loss. They next met the government troops with machetes, and fought with great fury. The soldiers of Caieras were repulsed, and fell back, carrying their wounded. After a short rest the troops were reformed, and again attacked the rebels. The fighting became general. Caieras rode at the end of his men and urged them on. He was cut off from the main body of his little army, and, with half a dozen of his men, found himself surrounded by a large enumber of the enemy, all eager to kill him. He fought for his life as stubbornly as he could, but he was finally knocked off his horse and killed. The government forces railled and forced the rebels to retreat. The Venezuelan consul's advices from the

government at Caracas contain the news of an important and bloody fight that took place Aug. 16, near Villa de Cura, in which ,500 men are said to have been killed or wounded. General Mendoza was at Villa de Cura with a large force. General Vallenilla had concentrated two thousand men some distance from bim. General Mendoza is considered the bravest and ablest of the Venezuelan generals. planned to lead the revolutionists under allenilla into an ambush and destroy them. For this purpose he sent a force of eight hundred men from his army, under command of General Zolaoga to march where the rebels were. His instructions to Zolaoga were to approach the enemy, and apparently offer them battle. When they should commence to fight the government troops were not to fire in return, but were to slowly retreat, and draw the enemy on until the main army appeared, when a general onslaught would be made and the revolutionary army destroyed. Zolaoga drew near to the force of revolutionists, and was attacked. The fire told with great effect, and the govern-ment general fell dead. Without a leader his troops forgot their instructions, and enraged at the death of their commander, they returned the fire of the enemy, and a hot battle began that raged with great fury. The force of eight hundred men found themseives opposed to two thou-sand, but fought on. The revolutionists had several field-pieces, and these mowed down the men. The battle continued for several hours with varying success. The modern rines and better training of the government troops caused great loss on the other side. The revolutionists threw their forces on either side and almost surrounded the eight hundred men. The latfer saw that the battle was going against them and tried to cut their way out. Both sides seemed to have become crazed and fought furiously. The dead lay on all sides, and the wounded were trampled on as the scene of conflict changed from place to place. Late in the afternoon the remnant of the government forces succeeded in getting through the lines. They beat a hasty retreat to a distance, when they got a little needed rest. The revolutionists were discovered that five bundred of the eight hundred men had been killed, and the government troops estimated that the revolutionists had lost one thousand men.

#### MERELY AN ADVERTISING SCHEME. Labouchere Posing as a Martyr for the Sake

of Increasing the Sales of Truth. LONDON, Aug. 26.-Mr. Labouchere has admitted receiving the letter stated to have been written to him by Mr. Gladstone, and has also admitted that in the letter Mr. Gladstone assumed the responsibility for the exclusion of Mr. Labouchere from the Cabinet. More than this, as to the contents of the letter, Mr. Labouchere declined to divulge, but he added that the letter would be published in next week's issue of Truth. Mr. Labouchere stated that he has not altered, and will not siter. his opinion of the influences which caused his exclusion from the Cabinet. There is a growing opinion that Mr. Labouchere is making a fuse in order to add to the profits of his paper, which has greatly increased its sales this week.

The Times this morning suggests that Mr. Labouchere pleaded to be excluded from the Cabinet to enable him to pose as a martyr, and adds: "It is possible that Mr. Gladstone, finding Mr. Labouchere disinclined to join the Ministry, desired to have his non-acceptance recorded in writing. Mr. Labouchere might at least remember that the Queen is precluded by her position from defending herself. The whole affair shows Mr. Labouchere's unfitness to enter the Cabinet."

VERY MUCH DISGUSTED.

Mr. Sweeney May Take Up Newspaper Work -He Goes from Buffalo to Chicago.

BUFFALO, N. Y., Aug. 26.-Alone, unfriended and melancholy, Grand Master Sweeney sat on his satchel in an obscure corner of the Central train-shed this morning, waiting for a Chicago train and reading an account of the assault upon himself. Sweeney, on being questioned, explained that "after the meeting of strikers which resolved to go ahead with the strike, the men got cool and saw they had practically ontlawed themselves from their order. and that anyhow there were not enough of them to cut any great figure. So they called another meeting, at which, I understand, they called off the 'rump' strike which they had ordered."

"They say, Mr. Sweeney, you sold their cause to the railroads."

"I have not seen the color of railroad money. This being a labor leader, I guess, don't pay. If you win you're all right, I you lose you're no good, and you've been bought and have done all sorts of things. After this talk with Mr. Sweeney, strikers lingering about their meeting-hall confirmed Mr. Sweeney's statement. WENT DOWN IN A GALE.

Millionaire Sibley, of New York, His Family and Four Others Drowned in Georgian Bay.

SAGINAW, Mich., Aug. 26.-The steam yacht Wapiti, which left here two weeks ago on a pleasure trip, is reported lost in Georgian bay. It is said that she went down in a gale to-day near Collingwood, Ont., and that eight persons on board were drowned. On board were H.IW. Sibley, a New York capitalist, his wife, son and daughter, and two ladies of Rochester, N. Y., whose names are unknown. Captain Ellsworth, the engineer, fireman and cook were also aboard. The cook and one other person were saved. The yacht belonged to Isaac Bearinger, of Saginaw, a partner of Mr. Sibley in the lumber business. Sib ley & Bearinger have large pine interests in Michigan and Canada, their headquarters being in this city. The captain and engineer of the ill-fated boot are from this city, while the cook and fireman are said to have been shipped at Mackinaw.

Hiram Watson Sibley was the son of the late Hiram H. Sibley, of this city, who was instrumental in establishing the Western Union Telegraph Company. B this and other successful business ventures he died leaving a fortune estimated at \$10,000,000. The greater portion of this Hiram W. Sibley inherited. The son was a cautions, conservative, middleaged man, who handled the large estate carefully. He married Miss Margaret Harper, of New York, a daughter of the late Fletcher Harper, of the famous publishing

# CANADIAN DISCRIMINATION.

Secretary Foster Replies to Mr. Herbert's Latest Note on the Caual Toll Question. WASHINGTON, Aug. 25 .- Additional correspondence with reference to the question of tolls on vessels passing through the St. Mary's Falls canal in transit to any port of the Dominion of Canada was made public too weakened to pursue them. It was then | at the Department of State to-day. It is supplementary to that given to the press on the 20th inst., when the President's retaliatory proclamation was issued, and consists of a letter written by Mr. Herbert on the evening of Aug. 20 to Mr. Foster, and the latter's reply thereto under date of Aug. 24. Mr. Herbert's note contains no intimation of the Canadian government's intentions. Its main points are covered in the concluding portion of Secretary Foster's letter. The Secretary says: "I have taken pains to set forth at some length the causes which have compelled the recent action of the President, in order that the Canadian government's people may know that there is every disposition on the part of the government of the United States to maintain and extend the most friendly commercial relations with our northern neighbors. bound to us by so many ties of race and community of interests, and I yet cherish the hope, which I have already verbally expressed to you, that before the President's proclamation goes into effect the Canadian government will take such action in the direction of treaty observance as will make the enforcement of that proclamation unnecessary. 1 am, happy to reciprocate, in the name of the President, the desire expressed in your note, 'to remove any ground which has a tendency to disturb the friendly interchange of trade between the two countries,' but I beg to suggest that a persistent violation of the treaty stipulations which were framed with the expressed purpose of promotion of 'friendly interchange of trade between the two countries' does not tend to that result. Until the Canadian government is prepared to resume its obligations under the treaty there can be found no safe basis of friendly commercial intercourse."

Reunion of Three-Months Soldiers.

Special to the Indianapolis Journal. WASHINGTON, Aug. 26,-A reunion of the three-months and 1861 West Virginia troops has been arranged to take place during the Grand Army encampment. Among these are the Seventh, Eighth, Tenth and Thirteenth Indiana, the Third, Sixth, Ninth and Tenth Onio, and Loomie's Battery, of Michigan, and the West Virginia troops. Capt. Thomas J. DESERTED THE ROTTEN HULK

Hon. John L. Farrar, of Peru, Can No Longer Support Free-Trade Democracy.

A Life-Long Damocrat, Known All Over-the State, Finds that the Principles of Jefferson Have Been Trampled Under Foot.

Special to the Indianapolis Journal. PERU, Ind., Aug. 26.-Hon. John L. Farrar, of this city, ex-judge of the Circuit Court, a lifelong Democrat and one of the ablest attorneys in the State, being well known over Indiana, created consternation in the old Bourbon ranks of this city yesterday by the announcement that from now on he was in favor of protection and the principles as advocated by the Republican party It was as unexpected to the Republicans as to his former friends, the Democrats. Republicans are jubilant, while Democrats are correspondingly depressed. Mr. Farrar is too well known to require detailed mention, as his name has been a leading one among the attorneys of Indiana for the past thirty years, and a veritable household word in not only this county but in those adjoining. The accession is a valuable one, from the fact that all his lifetime Mr. Farrar has been an ardent Democrat, and at one time was solicited to run for Congress in the Eleventh district.

He gives his ideas and principles as fol lows: That while he is Jeffersonian in feeling, the course of the party in wandering away from those principles has constrained him to advocate and embrace the of speeches to be given during the cam-paign, which will begin on Saturday, Sept. 3. It is a well-known fact that Democracy of this county is in a bad fix. Constant desertions, the revolt of the Irish faction, the hard work being done by the Republican party, and internal Democratic dissensions all combine toward making them desperate. The expose of a deficiency in the county treasury and money being borrowed in the banks at 6 per cent, to tide over unto November, as given by the Peru Republican, is making them more nervous than ever. Taken as a whole, the prospect for success of the Republican party in Miami county was never better.

## Organization in the Colleges.

New York Tribune. In Indiana every college and normal school has its organization. If the national convention of the Republican League in Buffalo had not been postponed at least five hundred college men would have gone there. As it is, two hundred or three hundred will be sent to the convention. F. M. Ingler is the president of the State League of college clubs in Indiana, and he is doing an immense amount of hard work. He is working in conjunction with the Republican State committee and the State League of Republican Clubs. In comparison with other States, President Burke says: "Michigan is probably the best State in the conntry, outside of Indiana, on account of it being the birthplace of the league."

There never was so much activity among college men as is going on now among our young collegians. It is believed this spirit will add much to the Republican party. At present the plans are being arranged for a big college demonstration in every college in the State. As soon as the colleges open F. M. Ingler will make a tour throughout the State, speaking in all the college towns, as well as in other places.

Democratic Rally That Fizzled.

Special to the Indianapolis Journal. WORTHINGTON, Ind., Aug. 26 .- A complete organization of the Republican Club at Worthington shows that the Republicans here are ready for the fight. About two hundred members have enrolled, and the meetings are enthusiastic and well attended.

The Democratic rally at this place, yesterday, was a complete fizzle. The whole congressional district had been billed with daming posters, excursion trains were run. Bynum and Turple were present, but the highest estimate of voters present was 250, many of whom were Republicans, who turned out for curiosity. The trains came empty. Bynum and Turple made the usual Democratic barangue-telling about the price of wheat twenty years ago-and the whole rally fell flat.
